Micah Willins

Senior Data Engineer / Data and Visualization Leader

(513) 313-4820 | Micah.Willins.88@gmail.com | Cincinnati, OH

SUMMARY

Senior data engineer and analytics leader with 14+ years of experience building scalable data platforms, modernizing reporting workflows, and translating operational and regulatory requirements into actionable insight. Experienced in designing trusted data pipelines, improving governance, delivering executive-ready visual analytics, and aligning technical work with business priorities.

CORE SKILLS

Data Architecture: ETL, API Integration, Data Modeling, Workflow Automation, Data Quality, Data Governance

Business Intelligence and Visualization: Tableau, Power BI, SSIS, SSRS, Dashboard Design, KPI and Metric Design

Languages and Platforms: SQL, Python, SAS, PowerShell, VB, DAX, SQL Server, PostgreSQL, MySQL, Oracle, SASGRID, AWS, Azure

Tools: GitHub, ServiceNow, Workday, MS O365, SSMS, DBeaver, VS Code, SAS EGP

PROFESSIONAL EXPERIENCE

Principal Data Engineer | Information Security | Fifth Third Bank | Cincinnati, OH | 2022-2026

- Led enterprise metric and reporting modernization in a regulated financial environment, improving governance, accountability, and executive visibility.
- Drove a Tableau-to-Power BI transformation, standardizing reporting patterns and improving consistency for operational and leadership stakeholders.
- Designed and delivered executive-facing visualizations and KPI frameworks that translated complex security data into clear, decision-ready narratives.
- Resolved cross-functional data quality and identity issues across AD, LDAP, and Entra ID to improve trust in critical reporting pipelines.

Lead Data Engineer | Information Security | Fifth Third Bank | Cincinnati, OH | 2020-2022

- Built and automated SAS-based warehouse and reporting workflows using REST APIs and PowerShell orchestration to improve reliability and reduce manual processing.
- Delivered compliance, audit, and risk analytics to support governance decisions and executive reporting across information security teams.
- Created reporting structures and visual explanations that made complex compliance data accessible to non-technical stakeholders and leadership.

Business Data Reporting Analyst | Information Security | Fifth Third Bank | Cincinnati, OH | 2019-2020

- Expanded and redesigned the information security metric program to create more reliable reporting processes for leadership and operational stakeholders.
- Transformed ad hoc Excel workflows into a repeatable data pipeline using directory-based ingestion, NAS storage, and SAS Grid processing.
- Built reporting and visualization structures that turned raw technical metrics into clearer decision narratives for security, risk, and governance teams.

Contact Center Reporting and Analytics Manager | Operations | Fifth Third Bank | Cincinnati, OH | 2017-2019

- Led reporting and analytics for customer operations, providing leadership with actionable performance metrics and process improvement guidance.
- Built and supported an internal analytics platform used to monitor operational efficiency, service quality, and customer experience outcomes.
- Created dashboards and visual performance views that translated operational data into clear management narratives for both frontline and executive audiences.

Application Developer | Information Technology | Fifth Third Bank | Cincinnati, OH | 2017

- Supported legacy application migration and modernization efforts, improving compatibility and operational stability.

- Partnered with business and technical stakeholders to validate requirements, update scripts, and streamline application support processes.

Reporting Specialist II | Operations | Fifth Third Bank | Cincinnati, OH | 2015-2017

- Created and maintained BI and operational reporting solutions for customer service, workforce, and performance metrics using SSIS and SSRS.
- Developed self-service reporting capabilities that expanded access to scorecards, trend analysis, and workforce metrics across the organization.
- Built operational dashboards and visual analyses that helped leaders understand performance patterns and respond quickly to emerging issues.

eBG Reporting Analyst | Operations | Axxess Financial | Cincinnati, OH | 2012-2015

- Built scorecard, incentive, and workforce reporting solutions that improved visibility into operational performance and key drivers.
- Automated payroll and operational reporting workflows, reducing manual effort and improving consistency across stakeholder groups.
- Translated business requirements into repeatable reporting products that supported customer service operations and leadership decisions.
