CAREER SUMMARY

Data and analytics leader with 14+ years of experience translating technical infrastructure into strategic business advantage. Proven track record of modernizing data platforms and reporting systems that accelerate decision-making, reduce operational risk, and improve organizational alignment. Expertise in designing governance frameworks and trusted analytics that enable leadership to act on complex data with confidence. Bridges the gap between technical execution and business outcomes—consistently identifying where infrastructure investments yield measurable returns in efficiency, compliance, and strategic clarity.

STRATEGIC FOCUS

Business Outcomes: Executive Decision Clarity | Risk & Compliance Acceleration | Operational Efficiency | Trust-Based Analytics
Technical Capabilities: Data Architecture | ETL & API Integration | Reporting Modernization | Business Intelligence | Data Governance | Workflow Automation | KPI & Metric Design | Cross-Functional Leadership | Stakeholder Alignment
