PROFESSIONAL SUMMARY

Strategic data engineering leader with 14+ years of experience building governed analytics pipelines, automating reporting workflows, and translating complex business and regulatory requirements into scalable solutions. Known for combining technical depth with cross-functional leadership, strong stakeholder communication, and practical delivery in compliance-driven environments.

CORE STRENGTHS

- Data Engineering
- Automation
- Governance
- Security Analytics
- ETL & APIs
- Stakeholder Leadership
- Agentic Workflows

EXPERIENCE

Principal Data Engineer, Information Security | Fifth Third Bank

2022–2026

- Led modernization of security metrics, reporting, and data delivery programs for operational and executive stakeholders.
- Expanded automation and governance capabilities while supporting regulatory reporting and audit readiness.
- Introduced AI-assisted workflows and standardized delivery practices to improve reliability and speed.

Lead Data Engineer, Information Security | Fifth Third Bank

2020–2022

- Built and automated SAS-based data workflows using REST APIs, PowerShell, and scheduling pipelines.
- Delivered analytics solutions that supported compliance, audit, and risk oversight initiatives.
- Mentored engineering staff and introduced stronger agile delivery practices.

Business Data Reporting Analyst, Information Security | Fifth Third Bank

2019–2020

- Oversaw and improved the information security metrics program across a complex reporting environment.
- Redesigned workflows to move from manual, fragmented processes to governed, automated data pipelines.
- Strengthened reporting quality and operational consistency for business and control stakeholders.

Contact Center Reporting & Analytics Manager, Operations | Fifth Third Bank

2017–2019

- Managed analytics and reporting for contact center operations while improving service performance insights.
- Led direct reports and collaborated with IT, vendors, and department leads to integrate business requirements.

- Supported implementation of analytics and customer experience tools that increased operational efficiency.

Application Developer, Information Technology | Fifth Third Bank

2017

- Supported application modernization and formalization work for legacy business tools.
- Helped maintain compatibility and stability during platform and tooling updates.

Reporting Specialist II, Operations | Fifth Third Bank

2015–2017

- Developed reporting solutions and end-user applications across operational KPI and KRI use cases.
- Built and maintained SSIS and SSRS-based reporting assets for business stakeholders.
- Used data mining and analysis to identify trends and inform operational decisions.

eBG Reporting Analyst, Operations | Axxess Financial

2012–2015

- Developed reporting and automation solutions for performance, incentive, and operational tracking.
- Built dashboards and reporting outputs to support leadership and frontline teams.
- Worked across multiple legacy systems and reporting tools to deliver practical business insight.

TECHNICAL TOOLKIT

SQL, Python, SAS, PowerShell, Tableau, Power BI, SSIS, SSRS, PostgreSQL, SQL Server, GitHub, ServiceNow, Azure / AWS-aligned data workflows.

EDUCATION & RECOGNITION

Information Security Leadership Program, Fifth Third Bank
University of Cincinnati — Cultural Anthropology
Cincinnati State — Computer Networking

Awards: Horizon Award (2022), Spirit of the Pin (multiple years)
